

Conference Program (60. Biometrisches Kolloquium)

Zeit	Montag 10. März 2014					Dienstag 11. März 2014					Mittwoch 12. März 2014					Donnerstag 13. März 2014														
	KD, Großer HS					KD, Kleiner HS					GW2, B2.880					GW2, B2.900					GW2, B3.009					GW2, B3.770				
08:50						08:50					08:50					08:50														
09:00	Tutorial: Informative Graphics with R Part 1					Statistical Tests in a Pharmaceutical Environment					Young Statisticians					Education for Statistics in Practice 1 "Analysis of Longitudinal Data" (G Molenberghs)														
09:10						09:30 Efficient Use of Secondary Data 1					09:10 New Measures for the Assessment of Risk and Prognostic Factors					09:10 Multiple Testing in Clinical Trials					Incomplete Data: Missing Values and Censoring									
09:20											Statistical Applications in Genetics and Molecular Biology					Combined Analysis of Multiple Data Sources					Boosting									
09:30																Lehre und Didaktik 1: "Methoden"					Survival Methoden									
09:40																					Sequential Designs in Clinical Trials									
09:50																														
10:00						10:10 BREAK					10:10 BREAK					10:10 BREAK														
10:10											AG Lehre & Didaktik																			
10:20																														
10:30																														
10:40						10:40 Opening Ceremony (N Breslow)					10:40 Nachwuchspreise					10:40 Education for Statistics in Practice 2 "Analysis of Longitudinal Data" (G Molenberghs)														
10:50											Statistical Tests					Research Ethics (G Williams)														
11:00																Wahlauszählung														
11:10																Multivariate Methods (A Bathke)														
11:20																Resampling and Machine Learning														
11:30																Adaptive Designs with Several Treatments, Endpoints or Subgroups														
11:40																														
11:50																														
12:00	12:00 LUNCH					12:00 LUNCH					12:00 LUNCH & Poster					12:00 LUNCH & Poster														
12:10						AG Adapt. Designs Multiple Testing					Biokybernetik					Treffen der AG-Leiter/innen														
12:20																														
12:30																														
12:40																														
12:50																														
13:00	13:00					12:45 AG Statistische Methoden in der Epidemiologie					12:45 AG PopGen					12:45 Poster (GW2) Presence at poster required from 12:45-13:30														
13:10																														
13:20																														
13:30						13:30 Spatio-Temporal Methods (A Gelfand)					13:30 IBS 60+					13:30 Integrative Analysis for High Dimensional Data Sets (M Vanucci)														
13:40																														
13:50																														
14:00																														
14:10																														
14:20																														
14:30																														
14:40																														
14:50																														
15:00																														
15:10																														
15:20																														
15:30																														
15:40																														
15:50																														
16:00																														
16:10																														
16:20																														
16:30																														
16:40																														
16:50																														
17:00																														
17:10																														
17:20																														
17:30																														
17:40																														
17:50																														
18:00	18:00 Vortrag für die Öffentlichkeit (Ahrens W) Haus der Wissenschaften																													
18:10																														
18:20																														
18:30																														
18:40																														
18:50																														
19:00																														
19:10																														
19:20																														
19:30	19:30 Get Together					19:30-21:30 Welcome Town Hall					19:30-23:30 Conference Dinner					19:30-23:30														
20:00																														
20:30																														
21:00																														
21:30																														
22:00																														
22:30																														
23:00																														
23:30
